

**Fulbright Foreign Student Program  
Nominee Placement Suggestion and Information Form**

Congratulations on your nomination for a Fulbright grant! The AMIDEAST staff in Washington, DC will begin researching appropriate academic placements for you as soon as your file reaches our office. Please use this form to provide three (3) university placement suggestions, which we will take into consideration when determining your university placement options. Our goal is to match your academic strengths with a program in the U.S. for which you qualify and that will meet your academic needs, fit within our budget constraints, and provide you with a quality cultural experience.

Please:

- **Complete this form as thoroughly as possible.**
- Take time to compare your credentials with those required by the universities to ensure you are suggesting realistic placement options. Key areas to compare are your test scores, academic record and previous research and/or work experience. Also take into consideration the university acceptance rate.
- Justify your suggestions: why is the university, program, courses, faculty, etc. a good match for your stated academic goals?

**SECTION I – Your Credentials**

Name:

Country:

Desired Degree Objective:

Desired Field of Study:

Undergraduate GPA:
