Ambassador Desrocher Visited Constantine

On April 22, Ambassador John P. Desrocher returned to the Wilaya of Constantine. After a successful February 2018 visit, the Ambassador was pleased to have the opportunity to return to Constantine to continue his conversations with senior officials and members of the Chamber of Commerce and Industry Rhumel about economic partnership opportunities for U.S. businesses in Constantine. During this visit, the Ambassador also met with the community of U.S. citizens in Constantine as part of routine interactions with Americans living throughout Algeria. The Ambassador's visit affirmed the United States' commitment to continue its long-standing cultural partnership with the City of Constantine, including through the refurbished American Corner at the University of Mentouri Brothers Constantine 1.
